

# Cryptocurrency Autobot How-to Sheet

*By Scott Ohlgren*

---

## Cryptocurrency enthusiast,

Friends have been asking how I'm growing my cryptocurrency account by over 30% a month with this autobot I'm using, so this PDF will show you what I'm doing. There's really no skill involved—I'm no trader—and it doesn't matter if a person starts with \$500 or \$50,000. This will work for any size account.

**All my trades are done on autopilot**, using one simple tool, an autobot that I get from [Crypto World Evolution](#). This system is perfect for the busy and inexperienced.

You're going to need roughly \$750.00 in Bitcoin (BTC) to get started—\$500.00 for the robot membership and I'd say at least \$250.00 to start trading with. If you don't have at least that amount to start, I would hold off, and then contact me once you're ready.

If you set up your trading platform the way I recommend, you can pretty much set it and forget it like I'm doing, and see the results that my fellow friends and I are getting.

## Exciting Things To Know:

1. **CWE's robot is available worldwide.** If you live on earth, you can be a part of this.
2. Trading can be 100% automated. Set it and forget it. If you're like me, though, it'll be hard to not check your new trades each hour to see your results :)
3. No cryptocurrency or trading knowledge required. I had neither, and I can walk you through each of these steps.
4. **Your cryptocurrencies stay in your personal exchange account at all time.** At no time do you give your BTC to anyone, including this autobot company. You remain in total control at all time. CWE could fold tomorrow and our entire cryptocurrency accounts would be fine.
5. Zero recruiting or selling required. The gains I'm talking about are only from the autobot trading. As a teacher and trainer, building teams is what I do, and CWE

offers commissions for those inviting others to try out their autobot, but most people only use CWE to utilize the bot and grow their cryptocurrency.

## **There are two main automatic robot packages to choose from:**

1. the \$500 Pack. Allows you to trade up to \$2,500 per day at any given time.
2. the \$2,000.00 Pack. Allows you to trade up to \$10,000 per day at any given time.

You can upgrade any time to trade far beyond \$10k, and I plan on it later this year.

## **Here are the steps** (ask me for help on any of these):

1. Call me, and I can share live screenshots of the results I'm getting.
2. Purchase some bitcoin (if you don't have any yet). I suggest [Gemini](#) or [Coinbase](#).
3. Set up your exchange. I and my friends use **Binance**, the world's biggest, and best for N. Americans. Bittrex, HitBTC, Okex, and Bitfinex are the other ones that CWE accepts.
4. When you're ready, sign up for one of CWE's bots [here](#) .  
However, I'd suggest letting me help you. I want to make sure you purchase the correct package and then get the trader set up properly. Setting up your trader is really a 20-30 minute process and then you'll be all set.

If you feel the need to do this on your own, that's fine. Click [here](#), sign up, then choose either the **\$500.00 CWE Trade** or the **\$2,000.00 Trade 8**.

I love helping people get started and using cryptocurrency, and we now have everything you need in place to ensure your success. The key is to just get started.

I look forward to getting you set up. Bitcoin (BTC) as well as most Alt Coins are going to skyrocket in 2018 and 2019, so be prepared for that now. You can thank me later!
